

MINI SYMPOSIUM

"Adaptive Designs - Modern Approaches in Clinical Research"

Friday 27 FEB 2026

Tagungs- und Veranstaltungshaus Alte Mensa, Emmy-Noether-Saal,
Wilhelmsplatz 3, 37073 Göttingen – Germany

For latest information visit: <https://medstat.umg.eu/veranstaltungen/>

27 FEB 2026

- 1.30pm **Welcome**
Tim Friede (Department of Medical Statistics, UMG, Göttingen)
- 1.40pm **"Group-Sequential Designs in Clinical and Translational Research"**
Frank Konietschke (Department of Biometry and Clinical Epidemiology, Charité –
Universitätsmedizin Berlin)
- 2.10pm **"Flexible Adaptive Procedures for Testing Multiple Treatments, Endpoints
or Populations in Confirmatory Clinical Trials"**
Cyrus Mehta (President and Co-founder of Cytel Inc.; Department of Biostatistics,
Harvard T.H. Chan School of Public Health)
- 3.00pm **Discussion**
- 3.20pm **Coffee Break**
- 3.50pm **"Group-Sequential Methods for Generalised Pairwise Comparisons"**
Stephen Schüürhuis (Department of Biometry and Clinical Epidemiology, Charité –
Universitätsmedizin Berlin)
- 4.30pm **"Methodological Challenges of Platform Trials"**
Sonja Drescher (Department of Medical Statistics, UMG, Göttingen)
- 5.00pm **"Robust (Blinded) Sample Size Re-estimation Using Nuisance Parameters in
Clinical Trials"**
Long-Hao Xu (Department of Medical Statistics, UMG, Göttingen)
- 5.30pm **Closing Remarks and Farewell**
Tim Friede (Department of Medical Statistics, UMG, Göttingen)

Registration is required by 08 FEB 2026 at the latest.

For registration please contact Judith Heinz at judith.heinz@med.uni-goettingen.de.
