SYMPOSIUM

"Registry-based non-randomized studies for treatment comparisons"

26 MAY 2026 from 11 am – 5 pm
Venue: Tagungszentrum an der Sternwarte, Großer Seminarraum
Geismar Landstr. 11b, 37083 Göttingen

SAVE THE DATE: The project NANA team from the Department of Medical Statistics, University Medical Center Göttingen, is pleased to announce a symposium on current methods for registry-based non-randomized studies for assessing the benefits and harms of drugs and other medical interventions to support decision making (e.g., regulatory and Health Technology Assessment). We will discuss insights and results from the NANA project and invited speakers will share their experiences and innovative methodological approaches at the intersection of statistics, data requirements, and regulatory requirements.

The exact programme will be announced in due course. For latest information visit: https://medstat.umg.eu/veranstaltungen/

Confirmed speakers include:

- **Uwe Siebert** – UMIT TIROL
- **Vanessa Didelez** – BIPS/ University of Bremen
- **Kit Roes** – Radboud University Medical Center Nijmegen
- **Volker Vervölgyi** – IQWiG
- **Jan Beyersmann** – Ulm University
- **Sabine Hoffmann** – LMU Munich

Registration is free but required by 1 Mai 2026 at the latest. For registration please contact Judith Heinz at judith.heinz@med.uni-goettingen.de.
